An Equal Opportunity Employer

### **PROJECT MANAGER WATERSHED SERVICES PROGRAM**

#### ***Description:***

This is a full-time position as a Project Manager in the Watershed Services Program providing a variety of professional functions associated with floodplain mapping, watershed master plans, stormwater management, and criteria development.

#### ***Duties and Responsibilities:***

- Oversees the development and technical review of supporting documentation for Flood Hazard Area Delineation studies.
- Conducts watershed master planning studies including the procurement and management of mapping and engineering services.
- Negotiates and develops inter-governmental agreements with local sponsors.
- Researches and develops drainage and stormwater management technical standards and criteria.
- Maintains and analyzes stormwater data from BMP demonstration sites.
- Creates and manages software tools, applications, and databases.

#### ***Minimum Qualifications:***

- Bachelor's degree in civil or related engineering field.
- Must possess a current and unrestricted license to practice engineering in the State of Colorado.
- Five to ten years' experience in responsible engineering work with a civil engineering consulting firm, public agency, and/or construction firm.
- Desired experience includes engineering design, hydrology and hydraulics including floodplain analysis, plus a working knowledge of the Urban Storm Drainage Criteria Manual (USDCM, Volumes 1, 2, & 3).
- Working knowledge of hydrology and hydraulics software, graphic information systems, and civil design software.

#### ***Key Competencies:***

- Working knowledge of hydrology, hydraulics, drainage, and floodplain management concepts.
- Working knowledge of the technical and practical aspects of engineering design, project supervision, construction, and maintenance.
- Demonstrated ability to apply such knowledge and concepts to specific problems.
- Ability to work effectively and cooperatively with other members of the staff, other governmental agencies, consulting engineers, and the public.
- Must possess high levels of both oral and written communication skills.
- Must have a demonstrated interest and ability in maintaining technical proficiency.

***Availability and Salary:***

- Immediate Opening
- Starting compensation rate: \$76,000 - \$111,000
- Application Closing Date: February 10, 2017
